Fantasy Tulip

Sleepy Hollow GIANT DARWIN TULIP Collection

Consistent with the charm of the original Old Dutch settlement at Sleepy Hollow we have selected the finest Dutch Darwin favorites to bring you the fervor and gaiety of color typical of the gardens of the early Dutch settlers. Records show that while the holds of those ships of long ago were crowded with the necessities of life, Tulip bulbs from the homeland were not excluded. In honor of our sturdy forefathers and our Sleepy Hollow countryside we chose these hardy varieties for your own Dutch Garden.

Planting Suggestions

If possible, prepare soil a week in advance digging to a depth of at least 10 in. Manure should not come in contact with bulbs but may be mixed with soil immediately below them. Bulbs should be set in upright with no air pockets around them. Set in ground in November and do not mulch until ground is frozen.

ALL MAIL ORDERS

We can handle parcel post, express and freight shipments of all plants except those requiring a ball of earth.

Shipment will be made at the appropriate planting time.

No mail orders can be accepted for less than \$3.00 and no c.o.d. shipments will be made unless a 25% deposit accompanies the order. To expedite handling we suggest enclosing a check, money order or postal note (no stamps or cash) with your order.

All shipping charges must be borne by the customer except where otherwise noted.

Please be sure to give your correct and complete shipping address and instructions.

Please address all mail orders and communications to our post office address—Eastview, New York.

Blooming Size PEONIES — A Rosedale Specialty

The propagation and growing of Peonies at Rosedale has had such special attention and care for so many years that we feel we can't rightfully determine which of the many varieties are best for growing in this area.

The Peonies listed have been selected because of their superiority in growing habits, sturdiness, fragrance, form and foliage.

Size of Peony Root: Rosedale Peonies are offered in a size one year older than is usual. A "division" (the size of root stock usually sold) at Rosedale has at least three

to five eyes and has been planted and grown under ideal conditions for one year before being offered for sale. These plants develop new roots and large, husky eyes which generally bloom the following June when planted in the Fall.

Culture: September and October are the months to plant Peonies for blooms in June. Prepare soil to depth of 18 inches, mixing in liberally bonemeal and pulverized sheep manure. Do NOT use fresh manure near roots. Plant the root division so that the prominent eyes are 2 inches below the surface of ground. Firm soil well around roots.

All Heavy Plants — 3-5 Eye Divisions With One Year Extra Growth

All \$1.50 varieties are 3 of a variety for \$4.00 postpaid shipments
